

1 FAST

Improved Blade Launcher® technology means fast and easy-to-use blade deployment every time.

2 STREAMLINED

New handle scale design is thinner and more streamlined as well as reinforced with stainless steel.

3 SAFE

Redesigned carabiners provide safer knife-tip coverage when stowed.

4 SECURE

Redesigned pocket clips are securely attached and positioned so the knife is carried low in the pocket.

5 STRONG

154CM stainless steel blades keep their edge three times as long as regular stainless steel.

6 CONVENIENT

Bit storage in the handle allows you to carry additional screwdriver options for more flexibility.

ANATOMY OF A NAME

- e = Expansive Series
- 33 = Medium Size
- 55 = Large Size
- x = Combo Straight/Serrated Blade
- L = Blade Launcher
- T = Fixed Tools + Blade Launcher
- B = Bit Driver + Blade Launcher (33-models)

WARRANTY

Leatherman Tool Group stands behind all our products with one of the best warranties in the business. If within 25 years of purchase of your genuine Leatherman knife you find any defects in material or workmanship, you can count on us to make it right with fast warranty service. Visit www.leatherman.com for details.

LEATHERMAN FOLDING KNIVES – EXPANSE™ SERIES

The Expanse line of everyday carry folding knives has been redesigned to meet your needs more effectively. Lightweight for your pocket, faster blade deployment for quick jobs and, as always, premium materials and detailed finish work that makes a Leatherman a Leatherman.

THE LEATHERMAN DIFFERENCE

There are three things that will always set Leatherman knives, pruners and tools apart from the rest: Materials, finishing work and multi-functionality. We choose every material carefully and with the feature's individual purpose in mind. We take the extra time to finish our products with details that may go unnoticed but will never go unappreciated. And last but not least, our trademark multi-functionality is always factored into all our products. Not for the sake of multi-functionality itself, but for *your* sake and to honestly add value to the product you choose for the job at hand.

With our knives, not only with you find strength in our stainless steel reinforced handles or superior edge retention in our 154CM blades, you'll find plenty of useful enhancements. Like the carabiner that easily clips to a belt loop, pack, or vest and that doubles as a bottle opener. Or customizable bit drivers (up to 42 bits sold separately) on some models that fold snugly into the handle for a streamlined option to that occasional twist and tighten job. You don't have to worry about "only having your knife" on you anymore. Screwdrivers, combination blades, removable pocket clips...The list goes on. Leatherman. Now you're ready.
